

Did you know....

That Pennine Acute Hospitals NHS Trust is about to increase Staff car parking charges by between:-

50% & 58% ?

We think that this is scandalous at a time when our pay award for the past two years has been only 3.225% and holds to ransom those who need to use their cars to get to work; particularly the low paid.

Why should staff be used to provide money to fund the Trust's operations with regard to items such as the security budget?

PLEASE tear off the slip below, hand it in to your Shop Steward or send it in the internal mail to:-

Chris Appleby, Chief Executive, Trust HQ, Westhulme

Dear Mr Appleby,

I need to use my car to come to work and am horrified by proposals to increase car parking charges by between 50% and 58%. I urge you to reconsider this decision that makes a mockery of Improving Working Lives and uses staff like me to fund the operations of the Trust.

Yours sincerely
